EN

Thank you for choosing a LUOOM lamp.

To get the best performance and longevity from your product, please read this manual carefully before use. It contains important information regarding the lamp's features, assembly, operation, maintenance, and safety precautions.

By following the instructions in this manual, you will be able to assemble the lamp correctly, use it safely, and maintain it in optimal condition for years to come. The manual also includes troubleshooting advice and warranty information to help resolve common issues and guide you in contacting customer support if needed.

Please review all sections thoroughly to ensure safe and proper use of your lamp.

Unpacking
This section will help you verify that all components are included and in good condition.

The package contains: Lamp (with power cord, switch, and plug), Instruction manual, E14 LED light source

Place all components on a clean, flat surface to facilitate inspection and assembly. Carefully examine each item for visible damage such as cracks, dents, or defects. If any damage is found, do not use the lamp and contact customer support immediately for assistance or replacement.

Safety Guidelines
Improper use of this lamp may result in property damage or personal injury. To ensure safe operation, follow all instructions in this manual and keep it for future reference. If the lamp is transferred to another owner, ensure this manual is included.

This lamp is intended for indoor use only. Keep it out of reach of children and do not allow it to be used as a toy. Always observe basic safety precautions to prevent accidents.

Intended Use
This lamp is designed exclusively for lighting purposes. It must not be used as a toy or for any other application.

Always place the lamp on a stable, level surface and keep it away from potential hazards such as open flames, candles, water, or containers filled with liquid.

Use only the components supplied with the lamp or accessories specifically approved by LUOOM for use with this product. LUOOM accepts no liability for damage or injury resulting from failure to follow the instructions in this manual. Such misuse will void the warranty.

This product is intended exclusively for indoor residential use and is not designed for outdoor, commercial, or industrial environments.

EU Compliance
LUOOM declares that, when installed and used correctly, this product complies with the following EU directives: Low Voltage Directive (2014/35/EU), RoHS Directive (2011/65/EU).
A Declaration of Conformity is available upon request.

Disposal
Do not dispose of this lamp with regular household waste. It must be taken to an appropriate recycling facility for electrical and electronic equipment. Dispose of packaging materials in accordance with local recycling regulations.

The lamp uses a removable bulb. Dispose of the bulb according to local regulations for electronic or hazardous waste.

Assembly
When installing the lamp for the first time, retain all packaging and documentation for future reference.

Take care to avoid tripping over or damaging the power cable during installation and use. Do not operate the lamp if the power cable or any component appears damaged.

The lamp comes fully assembled. Simply screw the LED light source into the E14 socket and gently press the shade down from the top onto the stand. Check that everything is secure before turning the lamp on.

Maintenance
Disconnect the device from the mains supply before cleaning or maintenance.
Clean the device using a dry, soft cloth only. Do not use water, liquids, or cleaning agents. Prevent moisture from entering the stand or any electrical components.
If the supply cord is damaged, it must be replaced by the manufacturer, an authorized service agent, or a similarly qualified person in order to avoid a hazard.
When the light source has reached the end of its service life, dispose of it in accordance with applicable national regulations. Replace the light source only with an appropriate E14 lamp of the specified type.

Light Source
This lamp is designed for use only with E14 LED bulbs with a maximum power of 6W. This lamp is supplied with a 220–240V LED bulb. The lamp itself supports a voltage range of 220–240V when used with an appropriate light source.

DO NOT USE INCANDESCENT, HALOGEN, OR CFL BULBS UNDER ANY CIRCUMSTANCES.

Light bulbs are considered consumable items and are not covered by the product warranty. Broken or worn bulbs are not eligible for replacement.

Usage Restrictions
Do not use the lamp in damp or wet environments, such as bathrooms or areas near bathtubs or showers (zones 0, 1, or 2). The lamp is not suitable for industrial environments or locations subject to vibration or physical impact.

Do not modify the lamp or its components. Use only parts and accessories provided or approved by LUOOM. Do not cover the lamp's top opening or hang objects from it.

This lamp is not compatible with dimmer switches, timers, or external control devices unless explicitly stated by the manufacturer. This lamp is compatible with smart LED bulbs.

Warranty and Product Identification
LUOOM provides a limited warranty covering defects in materials and workmanship under normal use and operating conditions for a period of two (2) years from the date of delivery.

The production date and product identification are stated in this instruction manual for traceability and warranty purposes. This manual must be retained for at least two (2) years to support warranty claims.

This warranty does not affect the consumer's statutory rights under applicable consumer protection laws.

Exclusions and Limitations
The warranty does not cover damage resulting from misuse, dropping, impact, or modification. Damage to the power cable or switch resulting from misuse is not covered. The LED bulb is considered a consumable item and is not covered by warranty.
